

Pump - RP 5000-float

The RP range of submersible pumps from 3000 - 18000 lt p/h are robust and reliable, perfect for delivering water or nutrient solution to plants via drippers or sprinklers.

Very popular in the Netherlands the RP pump offers very good value. A great pump for a good price. The RP 5000 is good for irrigation systems and will be strong enough to deliver to 100-150 drippers or 40-60 sprinklers.
