

Pump - RP 5400 SP

The RP 5400 SP pump is made to push a lot of pressure and therefore is perfect for using with Bato sprinkler systems. This pump is the closest you can get to the power and performance of a jet pump but still remains submersible. Very popular in the Netherlands the RP pump offers good value. A great pump for a good price.

The RP 5400 SP is good for irrigation systems and will be strong enough to deliver to 1500-2000 drippers or 250-300 Bato sprinklers!
