

Pump - Pedrolo CPM 25-160-B

These jetpumps are top of the range and are the largest pumps we offer. With a maximum head of 33metres this is a serious machine that delivers alot of pressure. Great for gardens with 250+ 4mm sprinklers (bato rayjets). The pumps must be installed in enclosed places, or at least protected against inclement weather. The pumps are close-coupled to a carefully matched PEDROLLO electric motor, quiet running, totally enclosed fan cooled (TEFC), suitable for continuous duty.

The price below includes the pump plus filter set and 32mm connection pieces to run into two lines.
