

Advanced Nutrients - pH Perfect - Sensi Grow

After hundreds of hours of work, Advanced Nutrients' team has made perfectly all macro, micronutrients and secondary nutrients needed to achieve unprecedented growth. Since these ingredients are derived wholly or partially chelated in pH Perfect Sensi Grow (some even with different chelating agents), your plants will absorb without the effort. Moreover, they will benefit from a wide spectrum of amino acids that will enhance the construction of cell walls in roots, stems and leaves. You also will verify the incredible results of humic acids and powerful nonionic surfactant. Both form a compound of nutrition ensure absorption of nutrients provided in each phase. And besides, you can say goodbye to the rods and pH meters forever. Our patented pH Perfect maintain the pH in the optimal range each week of the growth phase without measurements or adjustments.

Sensi Grow A & B and Sensi Bloom A & B are our nutrient formulas based on 2 parts. They are very easy to use, just mix the two sides and that's it, you can continue with your life. Sensi Grow A & B and Sensi Bloom A & B include Perfect® pH so the pH will remain stable at the perfect level.
