

Advanced Nutrients - Sensi zym

If you want to improve the health of your plants and increase growth and yields, use Sensizym. This concentrated enzyme product enhances the uptake of nutrients and other beneficial elements. Containing far more enzymes than products from other manufacturers, Sensizym provides truly superior results. By reconditioning soil and improving nutrition, Sensizym gives you increased growth, enhanced drought resistance, faster cell replication, and better harvests.

Enhances utilization of water and water-borne elements

Contains over 80 enzymes required by plants

Incorporates cellulase enzymes

300% more potent than products from other manufacturers

Has the longest shelf life of all enzymatic products

It's easy to use this advanced enzyme product. When applying Sensizym to soil or sphagnum moss, simply mix 5 ml of product per litre of water for every watering. Apply this mixture every week throughout the vegetative and flowering cycles. For hydroponics use, mix 5 ml of Sensizym per litre into the nutrient reservoir. Once again, use every week during the vegetative and flowering phases. That's all it takes to achieve the incredible results provided by Sensizym.
