

## Book - I love it

A beautifully illustrated book 'about growing hemp and lots more' with more than 500 photographs.

'I love it' pictures Michael Meredith's experiments, who was determined to grow hemp to provide for his own as well as his family's need. This comes with trial and error. All this has been elaborately written down and photographed. He also tells about his mistakes so something can be learned out of other people's mistakes. Not only does he discuss requirements for growing hemp, such as cultivation factors, harvesting, cuttings, etc., he also describes clearly how to make hemp-seedoil, brownies and hemp beer. 'I love it' has become a real bestseller (meanwhile sold more than 60.000 copies worldwide). Available in Dutch, English, German, French, Spanish and Italian.
