

Sensi Seeds - Fruity Juice ®

As definitive examples of the Sativa and Indica genotypes, prized cultivars from Thailand and Afghanistan represent opposite ends of the psychoactive cannabis spectrum. Attaining the perfect balance between pure Afghani Indica and pure Thai Sativa was a goal that took a very long time to achieve, even by the extra-patient standards of cannabis breeders.

The unpredictable nature of the first experimental Thai-Afghani crossings listed in early seed catalogues made them difficult to work with. Identifying the ideal combination of parent-plants required generations of testing, selection and examination of thousands of seed offspring.

Product characteristics

Brand	Sensi Seeds
Gender	Regular seeds
Type	Greenhouse ; Indoor
Genetics	Indica / Sativa
High	Very strong up high
Flowering	50 - 60 days
Height	150 - 175 cm
Yield	500 - 600 grams per m2

Price table

Product label	Product code	Price exc.	Vat	Price inc.
10 seeds (reg)	SS2313	89,26 euro	21.0 %	108,00 euro
