

Sensi Seeds - Guerrilla's Gusto ®

Ruderalis Indica captures the unique flowering properties of the Cannabis Ruderalis land-race, which grows wild across Eastern Europe. Through breeding with psychoactive Indicas from the south, Sensi has added potency and the result is this hardy, extra-early hybrid that can succeed in almost any environment. Requiring little equipment other than pots, soil and plant food, Ruderalis Indica can reward even first-time growers.

C. Ruderalis is noted for the unusual traits which allow it to reproduce in the short summers and very harsh winters of its native lands.
