

Sensi Seeds - Early Skunk ®

For excellent results and reliable outdoor performance, Early Skunk could qualify as the best all-round strain in the Sensi Seed Bank collection. She's tough, fast and amazingly vibrant, able to produce lush, heavy harvests of dank, frosted bud in virtually any climate.

Early Skunk brings together the bulk and vigour of Skunk #1 and the outdoor hardiness of Early Pearl in a turbo-charged cannabis hybrid that can grow happily in the garden, on the balcony or in any outdoor location with access to direct sunlight.

It wasn't so long ago that outdoor growers with short summers were unable to grow Skunks and other powerful hybrids to their full potential.
