

Sensi Seeds - Early Pearl ®

As the first outdoor Sativa designed especially for shorter summers, Early Pearl has been providing northern growers with luxurious harvests of bulky, trichome-frosted bud for over 20 years.

Before the development of early hybrids and acclimatised strains, producing powerful outdoor weed in Holland and similar climates was difficult. Though cannabis can grow anywhere, there was a time when seeds of truly psychoactive strains could only be obtained from imported weed.

While often promising in their genetic potential, these seeds, especially the Sativas, had no chance of succeeding in the northern climate.

Product characteristics

Brand	Sensi Seeds
Gender	Regular seeds
Type	Greenhouse ; Outdoor
Genetics	Sativa Dominant
High	Strong up high
Flowering	60 - 70 days
Height	+ 2 metres
Yield	500 - 600 grams per m2

Price table

Product label	Product code	Price exc.	Vat	Price inc.
10 seeds (reg)	SS336	50,41 euro	21.0 %	61,00 euro
