

Barneys Farm - Pineapple Chunk

Our Skunk #1 pheno crossed with our award winning Amnesia haze was always going to be a winner. That unmistakable Amnesia flavor combined with the power and resilience of Skunk #1.

The dominant high is definitely sativa, but amazingly, the Amnesia Lemon has a flowering cycle of just 9 to 10 weeks. The plant takes off vigorously from seed and needs minimum grow time before its flowering phase begins. The plant grows medium high, and delivers long strong colas, giving a distinct lemon flavor and taste, with an uplifting and cerebral high.
