

G-kit Bonanza 250W

This mini grow box guarantees years of hassle free growing. The ready to go G-Kit Bonanza 250 is suitable for beginner and professional grower. All you need to get started is the Bonanza grow box plus pots, soil and fertilizer; whether your growing medium is soil or hydroponics.

The cabinet body is made of aluminum profiles, plastic insert connectors and 8mm MDF panels. The sliding doors give ample access to the cabinet without needing extra space to open. The mini grow box G-Kit Bonanza 250 includes lighting and ventilation system (with odor filter). The system is composed of sustainable high quality products.

The 250 Watt ETI ballast together with the Powerlux reflector generates the ideal lighting, which is safely switched on and off by a G-tools relay-timer box. Heat is being extracted and filtered by the Winflex 125 fan and PK carbon filter. Fresh air is drawn in through 2 light tight G-tools air inlets.

It can be placed anywhere in your house, thanks to its attractive exterior and its quietness.

Notice:

This product will take 14-21 days to arrive.
