

Blurberries

What are they?.. Blurberries are our newest and strongest legal speed. This incredible buzz will blow you away!

Effects include: Increased energy and alertness, heightened sense of sociability and a feeling of confidence.

How will I feel the next day?

Stimulants make most people more inclined to drink lots of beer, smoke lots of fags. They can suppress appetite and make it difficult to sleep. This can make you feel a bit rough, so remember not to go to crazy unless you want to.

Is it OK to mix them with Alcohol?

Blurberrys do not react badly with alcohol but these are very strong so don't overdo it!
