

Genisys Vacuum Containers

Genisys Vacuum Containers: These rectangular vacuum containers are stackable and are made from food grade plastic. They feature a date dial on the lid so you know the day they were packed.

They have an inner shelf so that your produce can be kept away from any liquid that may drain off and the larger vacuum containers also have a separator. Available in 0.5, 0.8, 1.4, 2.0, 3.0, they can be purchased individually or as part of a complete kit which includes a manual pump and a 4.5 litre vacuum container as well.
