

Southseeds - O.G Kush F2

Southseeds O.G Kush F2 comes from the San Fernando Valley in Los Angeles and is considered to be the strain that put Southern California buds on par with the flowers coming from up North. Developed over three generations and years of stabilizing resulted in a phenomenal kush, said to be the strongest indica today.

Southseeds OG Kush F2, when properly grown, has the highest THC content of all kushes and is sometimes so strong, it "makes your teeth hurt" after you smoke a bowl. When smoked, it feels like a wake-up shot to the head, not unlike an espresso, which makes this smoke perfect as a pick-me-up during a long day of physical labor. Having said this, it is not recommended to smoke OG Kush before bed, as it is known to speed up the heart rate and keep the user awake.
