

## Southseeds - Super Silver A/F

Introducing the Southseeds Super Silver A/F. Southseeds Super Silver has been developed by Southseeds for sativa fans that need an auto-flowering strain. Seeds of this cannabis maintain quick flowering ability of the classic Super Silver Haze and, crossed with a Jack Herer X Ruderalis increase marijuana production and are auto-flowering.

Strong growth and THC laden flowers are typical of this sort. Big yields can be expected! Vigorous growth, short stocky plants with a 10 week seed to flower cycle. This Auto-flowering strain one has been specially developed by Southseeds for Super Silver lovers that want something easy to grow just about anywhere.
