

Serious Seeds - Double Dutch

Double Dutch is a cross of a Warlock male with a pre-2000 Chronic female. During the seedling & vegetative growth stages, Double Dutch shows its Indica pedigree with fat leaves, thick stems, and a bushy growth pattern.

In the flowering stage Double Dutch produces giant Sativa-like buds. All tips that receive copious amounts of light will form huge buds similar to elongated popcorn balls. Double Dutch buds must be staked due to their heavy weight. Performs well in bio, coco and hydro growth mediums. The Double Dutch aroma is a pleasant fruity wildflower scent. The buzz is complex and strong. The high is both cerebral and heavy.
