

Dutch Passion - Snowbud ®

SnowBud is our second “High Altitude” variety. SnowBud is a hybrid of Afghani and South African genetics. As with Pamir Gold the selection work is done in the Swiss Alpes. SnowBud (60% Sat./40% Ind.) has a spicy (cinnamon), skunky smell and taste, smokes very smooth and has a medium “up high”.

Healthy plants may reach 1.8 till 2.2 meters outdoors. Mold and mildew resistant. Yield: above average. Does also well indoors. The name SnowBud refers to the huge amount of white pistils in the female flowers (buds).
