

Raw - Tips - perforated

RAW Tips are made on an antique Fourdrinier paper machine. Whereas RAW papers are made in Alcoy Spain, we only have machines to produce thin paper in Alcoy. For the thick tipping paper we had to travel to an old paper mill in Northern China that was still using an original Fourdrinier. This was the only place we could find that still had one of these old machines in use, which we needed to make the special long-fiber paper for RAW tips.
