

Raw - Papers - Small

RAW Natural Rolling Papers have developed a cult-like following. RAW are pure, less processed rolling papers unlike anything that you have ever seen or smoked. Because they contain a hybrid blend of unbleached (not chlorine whitened) fibers, the paper is a translucent natural light brown color. RAW is so thin that you can see through it.

Each paper is watermarked with our patented CrissCross watermark. This special watermark helps prevent runs and maintains the smooth even-burning characteristics that we are famous for. RAW is available in many sizes and styles to suit the most discerning smoking connoisseur. Enjoy your favorite smoke in its purest RAW form.
