

## THSeeds - Wreckage

A brand new Mix of two super hybrids. The world famous original Arcata trainwreck and our #1 plant the S.A.G.E.<sup>TM</sup>.

We have chosen these two due to their similarities and their differences, they both have beautiful uplifting sativa highs that the true connoisseur can fully appreciate. The growth on the other hand is quite different from o.g. TW is a spiny plant that can get quite unruly as she flowers giving your room the look of a real trainwreck tops and branches everywhere.

The S.A.G.E.<sup>TM</sup> with its Afghani bottom grounds the two and gives them incredible explosive growth and a beautiful indica influenced structure that will bring order to the often difficult TW line. The menthol flavor of the o.g. TW and the spicy sandlewood flavor of the S.A.G.E.<sup>TM</sup> produce a flavor packed tongue numbing hit that will leave you wrecked.
