

## THSeeds - Electric Lemon G

Electric Lemon G is a clone-only cut that originates from Ohio. It consists of an unknown lemony sativa male crossed with the Original G-13 female (government bred, TSK acquired). Reeking of lemons and what can only be described as "gravy", this hardy plant grows large with long, heavy, sexy sativa buds.

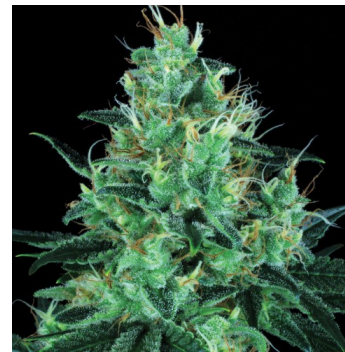

The flavor of this plant is incredible! It tastes like astringent lemons all the way to the last hit, leaving a strong, earthy citrus taste clinging to your taste buds.

The buzz is very uplifting with an almost anti-depressant quality making it a great daytime smoke. This is definitely not a couch-lock herb!

We crossed this elite cutting with a very special NL-5 male to bring down the flowering time and boost the already large yields of the Lemon G. TSK kicked it up a notch by electrically stimulating the seed-producing plants.

This technique increased the amount of the females to males naturally as well as improved germination rates. Expect a few different phenos from the seeds.

### Marijuana characteristics

Brand	THSeeds
Gender	Regular seeds
Type	Greenhouse ; Indoor ; Outdoor
Genetics	Indica Dominant
High	Strong up high
Flowering	60 - 70 days
Height	100 - 120 cm
Yield	300 - 400 grams per m2

### Price table

Product label	Product code	Price exc.	Vat	Price inc.
5 seeds (reg)	STHC1130	37,19 euro	21.0 %	45,00 euro
10 seeds (reg)	STHC1131	66,12 euro	21.0 %	80,00 euro
