

Saverette

The famous Saverette always makes sure that what you don't smoke, doesn't burn up... Save your blunt joint safe and extinguished in this King Size Saverette, in a classy black design! Saverette, saves your joint!

The Saverette is a revolutionary plastic tube that you can use to extinguish your joint, and keepsafe inside, without any loss of flavour. Ideal for situations where you don't have time to smoke your entire blunt, but don't want to throw it away. How does the Saverette work?

Simply place the burning joint in the Saverette and close the plastic lid. Within five seconds it will no longer be lit. The extinguished joint can later be re-lit without any loss of flavour. The Saverette is made of heat resistant plastic, which allows you to safely extinguish and carry around your joint with 100% fire safety and completely odourless.
