

Devils Harvest - Fallen Angel

Khufu x Shoreline

This is the newest strain from Devil's Harvest. We selected our [Khufu](#) clone and crossed it with the [Shoreline](#) S1 Polm to create our Fallen Angel. She is a fast flower Kush plant with the strong aroma of the Shoreline and a powerful blast of Khufu to stone your mind. This indica variety is easy to grow, and gives a yield unlike Kush itself. This strain can take 8-9 weeks to flower and like Shoreline, it has a strong smell that carries through in the smoke. This is a great medical strain with high resin content and a nice stoned effect.oy.
