

Dinafem - Critical Cheese Autoflowering

Critical Cheese Autoflowering cannabis seeds by Dinafem Seeds belong to an Indica-dominant, feminized, autoflowering cannabis strain that originates from the cross of a Critical + Autoflowering and a Cheese Autoflowering. The result is a stable autoflowering strain that combines the amazing qualities of these two outstanding genetics.

Critical Cheese Autoflowering boasts the same features as its predecessor, as it is simply the autoflowering version of Critical Cheese. It is a high-yielding, easy-to-grow, vigorous, small/medium-sized marijuana plant that flowers fast and yields large, compact, freshly-scented buds. It will definitely convince those who appreciate quality.

Critical+ Cheese Autoflowering has an intense flavour and aroma, with hints of fresh lemon and blue cheese. The effect is relaxing, powerful and long-lasting. It is the perfect choice to unwind at the end of the day.
