

Dinafem - Critical Jack Autoflowering

Critical Jack Autoflowering cannabis seeds by Dinafem Seeds belong to a feminized Indica-dominant cannabis strain that comes from the cross between our Critical Jack elite clone and our Roadrunner Autoflowering, which resulted in a premium-quality hybrid.

This autoflowering version of Critical Jack allows growers to obtain fast quality crops in an easy way. It grows into an outstanding, fast-flowering, easy-to-grow, medium-sized, vigorous marijuana plant that produces dense, elongated buds covered in resin and that can be harvested several times per year with the right photoperiod.

Critical Jack Autoflowering cannabis seeds perform well indoors with proper lighting (20/24h with 600W HPS). Outdoors it is advisable to plant it from mid-May to early June and to add 1/3 of coco fibre to the soil in order to speed up nutrient uptake and growth. Water little but often.

The flavour and aroma of Critical Jack Autoflowering are pronounced, with hints of citrus fruit, exotic wood and spices. The effect is powerful, balanced, physical and cerebral, finishing with a feeling of body relaxation. It is the perfect marijuana plant to unwind in good company.
