

Dinafem - Dinamex Autoflowering

Dinamex Auto cannabis seeds by Dinafem Seeds belong to a feminized autoflowering cannabis strain that results from the cross between a Dinamex and a Haze 2.0 Autoflowering. It is a high-quality marijuana seed that shows excellent balance at all levels and that has a very rare flavour complexity considering it is an autoflowering seed.

Dinamex Auto cannabis seed is the perfect solution for growers seeking a balanced cannabis strain. It is a beautiful fast-flowering easy-to-grow vigorous small marijuana plant that develops small internodes and considerable yields of elongated dense buds covered in resin.

It is a cannabis seed with which to obtain bumper marijuana crops in a fast and easy way both indoors and outdoors. We recommend the use of fertilizers and regular watering but in small amounts to help the plant achieve full potential. Adding 30% of coco to the soil will accelerate the metabolic processes of the plant.

Dinamex Auto has a deep flavour and aroma, with notes of Diesel, oil and citrus fruits. The long-lasting effect is powerful, physical and mental. It is the perfect marijuana strain for unwinding with friends.
