

## Dinafem - Moby Dick Autoflowering

Moby Dick Autoflowering cannabis seeds by Dinafem Seeds belong to a feminized autoflowering cannabis strain derived from the cross between a Haze Auto and a White Widow Autoflowering, which has resulted in a true autoflowering champion that remains faithful to the renowned feminized version.

This automatic version of our beloved Moby Dick allows growers living in zones with an unfavourable climate to obtain quality crops. It is a beautiful, easy-to-grow, medium-sized marijuana plant that grows fast and vigorously, producing abundant amounts of huge, compact buds full of glistening resin.

Moby Dick Autoflowering performs well indoors, particularly if provided with abundant light (600 W HPS 20/24h) and lots of fertilizer. Outdoors, it enjoys temperate/Mediterranean climates and the pleasant atmosphere of a greenhouse. It is advisable to water often but sparingly and to use 1/3 of coco fibre in the soil mix in order to oxygenate it and thus accelerate the metabolism of the plant.

The flavour and aroma are pronounced, with hints of lemon, Haze, cedar and incense. The effect is powerful, cerebral, euphoric, uplifting and long-lasting. It is the perfect cannabis strain for staying active.
