

Dinafem - White Cheese Autoflowering

White Cheese Auto cannabis seeds by Dinafem Seeds belong to an Indica-dominant, feminized, autoflowering cannabis strain that originates from the cross of a White Widow Autoflowering and a Cheese Autoflowering. The result is an autoflowering hybrid that boasts amazing qualities.

White Cheese Auto cannabis seed was designed to provide both a unique flavour and aroma as well as several medicinal effects. It is a high-yielding, easy-to-grow, vigorous marijuana plant that flowers fast and produces thick, compact buds covered in lots of resin. Its complex qualities will delight every grower.

White Cheese Auto is a medium-sized plant that performs well indoors and under a dry, warm, sunny climate or in the greenhouse outdoors. It combines the relaxing and therapeutic properties of White Widow and the unique taste and aromatic traits of Cheese. White Cheese Auto has an intense, bittersweet flavour and aroma, with hints of fresh flowers and Cheese. The effect is powerful, relaxing, more physical than cerebral and long-lasting.
