

Dinafem - Blue Widow

Blue Widow cannabis seeds by Dinafem Seeds belong to a feminized Sativa/Indica cannabis strain obtained by crossing a Blueberry and a White Widow. The result is a balanced hybrid with several properties appreciated by growers worldwide.

This cannabis seed is a true delicacy that clearly displays the rich complexity of its genetic parentage. It grows into a wonderful, fast-flowering, easy-to-grow, medium-sized, vigorous marijuana plant that yields large, compact buds covered in a good layer of trichomes. The influence of its parent Blueberry makes her develop a nice purple/violet hue if night temperatures drop by 10°C.

Suitable for growers of all levels, Blue Widow allows you to obtain abundant quality crops in a fast way. It does well indoors with all the cultivation methods and outdoors in temperate/Mediterranean climates or in a greenhouse. It is advisable not to overfeed this classic that continues to impress growers wherever it goes.

The flavour and aroma are pronounced, with clear bittersweet notes of berries. The effect is powerful, balanced, physical, cerebral and long-lasting. It is the perfect cannabis strain to spend some time just relaxing.
