

Barneys Farm - Critical Kush Auto

Our legendary Critical Kush is now available as an autoflowering strain. This most popular autoflowering monster is ready in just eight to nine weeks. Created by crossing Critical Kush with our most advanced autoflowering breeding plants. Flowering begins in the fifth week and in the following four weeks of flowering the plant will peak at 75 cm tall, with a main stem and several side branches packed with compact heavy and tasty colas. Delicious earthy pine and Kush flavours prevail.
