

## Kannabia - Amnesi-K

Of course, before we talk about amnesia, the word that comes to mind is euphoria, because what we have here is certainly a magnificent sativa. An Amnesia x Lemon Skunk x Jack Herer cross, a trio that's now at the service of the grower and the most demanding gourmet.

Its shape leaves no room for doubt, its rebellious green fills with resin, reminiscent of almond trees in flower. It gives of a smell of lemony grapefruit mixed with incense. With a full, robust appearance — a cross between the freshness of spring and the scent of autumn.

Because it is predominantly a sativa variety, it's effects can be said to range from euphoric laughter to stimulating psychoactivity.
