

Kannabia - Kiss

Native to England, we crossed it with Afghan in order to stabilize it.

It's a plant that adapts very well to the Spanish climate, with its key plus point being its flavour. Big Northern is synonymous with good, flavoursome marijuana. It is yet to be confirmed, but among its relatives are believed to be included Northern Light and Skunk. Indoors, it adapts very well to hydroponic systems, where it can complete the flowering cycle after only seven weeks with a 12-hour photoperiod. Due to the heritage of the White Widow, plant introduced due to its roasted, deep flavours, the flowering cycle will extend in some plants, and they will be ready for harvest in 8 weeks.

Outdoors the plant will be completely ready the first week of October. It, no doubt, smells like cheese!

Product characteristics

Brand	Kannabia
Gender	Feminized seeds
Type	Greenhouse ; Outdoor ; Indoor
Genetics	Indica Dominant
Flowering	50 - 60 days
Height	175 - 200 cm
Yield	500 - 600 grams per m2

Price table

Product label	Product code	Price exc.	Vat	Price inc.
3 seeds (fem)	SDS-F-3-016	17,36 euro	21.0 %	21,00 euro
5 seeds (fem)	SDS-F-5-016	23,97 euro	21.0 %	29,00 euro
