

CBD Crew - CBD Skunk Haze

Aroma description:

Ceder wood spicy with citrus/ pine/ mint flavors running along side.

Overall description:

CBD Skunk Haze is a tall plant and quite self supporting, and quite easy to grow. It's a good hybrid and it's one of our most popular strains. Flowers tend to be large and airy, a bit more on the sativa side. Won 3rd place Sativa Cup at Treating Yourself Expo 2013, Ontario, Canada, competing with only high THC plants. Entered by a private grower.
