

CBD Crew - CBD Yummy

Aroma description:

Tropical fruit salad, exotic richness with delicious mouth-watering tastes.

Overall description:

CBD Yummy comes from the Resin Seeds side of the CBD Crew. Originally Yummy was a cross of a very special Yumbolt strain selected in 2003, with the G13 Haze male. The CBD version is equally special being the most sativa of the CBD Crew's strains. It is a strong stemmed strain with good self support producing large colas. This strain is very good for super-cropping. Similar to many sativa it has an exotic richness, like a tropical fruit fruit salad, with delicious mouth watering tastes.
