

Humboldt - Chocolate Mint OG

We merged two iconic super strains from the Northern California scene, the infamous OG with the ever classic Granddaddy Purple. Very vigorous growth during beginning stages makes for a quick turnover into the flowering period. Long spacing between node sites gives excellent light penetration.

The flowering period requires some form of trellising or stakes as large egg shaped bud sites develop into beautiful crowning colas, which finish heavy coated in resin. Strong overtones of chocolate, mint and pine are unmistakable, ending with notes of tangy sweetness. This flavor is undeniably good down to the very end. Effects are very strong and cerebral as it is ideal for “end of day” use. This amazing combination of flavor is quite unique to most profiles and is not one to miss.
