

Humboldt - Sapphire OG

From the vaults of HSO's broad genetic collection comes another classic GEIST-GROW breeding creation, the Sapphire OG. Comprised of an OG X OG/Afghan, this unique phenotype displays the unique landrace traits of HSO's Old World Afghan fused into the timeless classic and uncirculated late 90's OG Kush. This resulted in a potent and beautiful array of both color and complex aromas.

Fast growth in beginning stages results in fast transitions into the flowering period. Doubling in size, trellising is recommended to control the canopy as SCROG techniques are ideal to fill desired footprints and create even growth. Thin fan leaves make for ample light penetration allowing for strong secondary development.

Indoors, flowering induces rather quickly as sites build to be long dense crowning colas, high in resin count. Displaying an array of color during final stages. Sapphire finishes in just 57-63 days. Outdoors, harvests can be expected by the end of September to early October reaching heights of over 5+ meters contingent on the skill set of the grower. Production value is incredibly high as double trellising is recommended early to support large terminal sites in the last 4-6 weeks of development.

Complex aromas range from gassy, pine and chocolate overtones accompanied by citric and floral undertones. Effects are strong and cerebral followed by an equally strong body high. Great for end of the day use as well as appetite stimulation and pain relief. This classic creation continues to maintain the standard of quality from the one and only Humboldt Seed Organization.

Product characteristics

Brand	Humboldt
Gender	Feminized seeds
Type	Outdoor ; Indoor
Genetics	Indica Dominant
Height	+ 2 metres
Medical	High THC / Low CBD

Price table

Product label	Product code	Price exc.	Vat	Price inc.
5 seeds (fem)		33,06 euro	21.0 %	40,00 euro
10 seeds (fem)		66,12 euro	21.0 %	80,00 euro
3 seeds (fem)		19,83 euro	21.0 %	24,00 euro
