

Headshop Kiwiland

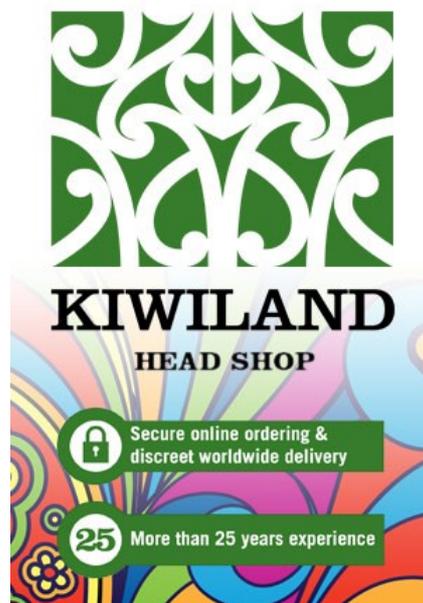

Top quality Headshop full of everything you need to enjoy life!! Here at Kiwiland Amsterdam we have collected a fine range of quality [Grinders](#), Vaporizers, [Pipes, Bongs](#), Glass, [Smoking accessories](#), Stash and Storage products for sale!

Are you looking for information about indoor and outdoor cannabis growing? Do you want to learn rolling and smoking cannabis joints? check our educational and entertaining [Books & dvd](#) section.

We are careful to stock only products that have proven themselves already. We have everything from plain plastic grinders right through to triple screen sets that include polm pressing equipment. You're sure to find here a grinder that suits you needs.

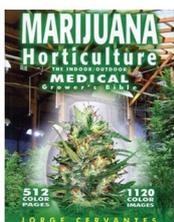

Using a vaporizer allows you to heat your blend to a level of vaporization without combustion. Did you know that using a vaporizer can cut down up to 95% of the nasty by-products associated with smoking while significantly increasing the inhalation of active ingredients in your blend?

If you have just finished harvesting your cannabis, you might be interested in the Kiwiland [Weighing scales](#) and [Packaging & sealing](#) sections. Our selection of pipes and bongs for your smoking pleasure. Bigger pipes are great for cannabis whereas smaller pipes are better for hashish.
