

Growshop Kiwiland

The 'Kiwiland Growshop' is aimed primarily at the smaller, quality rather than quantity minded growers. Growers who are eager to inform themselves about the various nutrients, pest-control and growth & bloom possibilities, and who are interested in raising a qualitatively high-value product. The new products and various grow systems can be viewed 'live' in the shop, where a huge space has been set aside for a 'show-grow'- and it's not just the tourists who are popping in to take a look.

Whether you're just a beginner, or an experienced grower, Kiwiland can supply you with everything you need. From Grow-tents that can be set up in minutes and easy to use, to complex hydroponic systems that require advanced skills, you'll find it all at the Kiwiland shop. In addition we offer professional advice from a team of horticulturists with many years combined experience, and full after-sales support as easy as a phone call or email away.

Situated in the heart of Amsterdam means being at the fore-front of the industry and it is this experience we pass directly on to our customers. Call in and see us the next time you're in town, or order directly from the site, either way you'll always receive friendly, helpful advice, and fast, discreet **Kiwiland** service.

Kiwiland's [growing lights](#) are just about the most important purchase you will make in an indoor growing situation, and you can be assured that at the Kiwiland we stock only the very best lamps and [ballasts](#) on the market today.
