

Vaporizer - VaporGenie Classic

Looks and acts as easy as a pipe. Vaporizers your favourite herb for a healthy and clean alternative to smoking without the technical fuss.

The VaporGenie has a very simple yet durable design. Different from other vaporizers, it doesn't need batteries, no technical or moving parts. It works as easy as a pipe taking the heat from any regular lighter or match. Nevertheless, it is much healthier.

A ceramic filter provides the heat and the patented filter avoids your herbs of burning, vaporizing the psychoactive substances instead.
