

DNA Genetics - Exodus Kush

Exodus Cheese (UK) x OG Kush

The Exodus Kush is a cross that everyone has been asking for. Two unique flavors collide in this hybrid and the result is a Cheese growth structure (shorter and wide with heavy dense colas) and the OG Kush strength (mostly being nighttime smoke due to its very strong couchlock effect).

The Exodus Kush is great for the beginner grower giving great yields as well as being very forgiving with minor mistakes. Don't let the short stature of her in veg. fool you. Pinching is suggested to keep from too much stretching and providing bigger yields. The flavor starts off like old school classic Cheese then quickly turns to the OG flavor. The OG Kush takes over your pallet while keeping the Cheese ever so slightly in the background. This mix makes it hard for devoted Cheese lovers as well as the OG Kush loyalists to look any farther. This is your cross!

Product characteristics

Brand	DNA Genetics
Gender	Feminized seeds
Type	Greenhouse ; Indoor
Genetics	Indica Dominant
High	Very strong up high
Flowering	50 - 60 days
Height	100 - 120 cm
Yield	450 - 550 grams per m2

Price table

Product label	Product code	Price exc.	Vat	Price inc.
6 seeds (fem)		57,85 euro	21.0 %	70,00 euro
3 seeds (fem)		33,06 euro	21.0 %	40,00 euro
