

DNA Genetics - LA Chocolat

Chocolope X LA Confidential

LA Chocolat has made improvements to both parents in this cross, the Chocolope gains the power of the LA Confidential and the LA gains the yields of the Chocolope. LA Chocolat gives you one strong medicinal hybrid that has high calyx to leaf ratio, early flower times and buds that taste like fruity, earthy, chocolate. The flower time is 8 weeks making it commercially viable, grows great indoors or for a quick finish outdoors and because the original LA structure is small it stops the stretch from the Chocolope so there is no need to pinch or top. LA Chocolat is a good strain to relieve pain and also great appetite stimulator for cancer and chemotherapy patients.

Product characteristics

Brand	DNA Genetics
Gender	Feminized seeds
Type	Greenhouse ; Indoor
Genetics	Indica Dominant
Flowering	50 - 60 days
Height	100 - 120 cm
Yield	400 - 500 grams per m2

Price table

Product label	Product code	Price exc.	Vat	Price inc.
6 seeds (fem)		57,85 euro	21.0 %	70,00 euro
3 seeds (fem)		33,06 euro	21.0 %	40,00 euro
