

DNA Genetics - Nicole Kush

Nicole x Kosher Kush

DNA Genetics has teamed up with our good friends over at Marimberos to offer the first official release from the Marimberos collective with the brand new flavour, Nicole Kush. This strain is a cross of Nicole from Marimberos and Kosher Kush from DNA Genetics. Packing a strong indica punch Nicole Kush is definitely one for the true connoisseurs. Super dense nugs with very low maintenance with frosty trichomes with blue terpenes. This special and unique plant has a long history of legendary water hash and BHO extractions.
