

Reserva Privada - Tangie

Clone Only x Crocket's Selection

The Genetics are Cali-o X Skunk Hybrid then selected to what we have now the Tangie, She grows nice and tall, with a good yield! She will continue vertical growth until the 5th week so be aware of your space. The Tangie produce very resinous flowers with an unbelievable aroma of citrus, tangerines!! Also she produces some of the best tasting concentrates!

Winning every contest she has been entered in 10 out of 10 contests in 8 months!!! Growing the Tangie outside is a must as she finishes late September early October with heavy yields and super sticky flowers. For best tasting results grow the Tangie in soil.
