

## Osram - Plantastar

The Osram Plantastar® has been developed to meet the requirements greenery's make to these sources of light. Illuminating vegetation cannot be compared to the lighting of, for example, a highroad. With the introduction of the high pressure sodium light, Osram has a light source that meets all requirements for a good assimilation lighting.

### Characteristics:

- \* Low cost of maintenance by low failure of the lamp
- \* Extremely constant luminous flux during the first 10.000 burning-hours. After this time or every two years it is advisable to exchange the lamps.
- \* Solid, high impact construction, leading to few breakage
- \* No moving start-antenna, so no chance of dispatching parts

### Product features:

- \* Constant high quality because of optimized production method
- \* Optimised frame construction with patented shock absorber
- \* New, fargoing ceramics, resistant to sodium guarantee long lifetime
- \* Laser welding guarantees geometrical precise connection
- \* Extremely high luminous efficacy up to 145 lm/W

### Attributes

Category	Lighting
Sub category	Bulbs
Brand	Osram

### Specifications

Watt	250 / 400 / 600
Color temperature (K)	2000
Lumen	33200 / 56500 / 90000
Fitting	E40

### Price table

Product label	Product code	Price exc.	Vat	Price inc.
250W		18,60 euro	21.0 %	22,50 euro
400W		29,34 euro	21.0 %	35,50 euro
600W		41,32 euro	21.0 %	50,00 euro
