

THSeeds - Auto Northern Hog

T.H.Seeds Iberica has crossed our legendary HOG with a stable big producing Northern Lights from Spain. This plant is all about huge production. If you are fortunate enough to have a good sunny climate you can get up to 3 crops per season. For an Autoflower plant Northern HOG can reach heights up to 1.8 meters and will need lots of water to support its huge bud production not to mention the highest THC testing for an autoflower at up to 17%. It is also surprisingly mold resistant.
