

High Culture - CBD Oil

High Culture Organic CBD Oil

Top-quality gold CO2 hemp extract rich in naturally occurring cannabinoids.

Each product contains a guaranteed level of CBD and other naturally occurring cannabinoids, terpenoids and flavonoids (such as CBC – cannabichromene, CBG – cannabigerol, CBDV – cannabidivarin, β -caryophyllene, and the valuable of omega-3 and omega-6 fatty acids).

Advantages of High Culture CBD extracts:

- Dietary supplements High Culture extracts are produced entirely in the process of solvent-free extraction of the whole Cannabis sativa L. – in other words, from a completely safe and legal hemp plant
- All the ingredients of High Culture extracts are obtained with innovative equipment designed specifically for supercritical CO2 extraction of cannabis
- Thanks to years of experience and our fascination with Cannabis, High Culture is one of the few companies in the world producing gold-level extracts without the use of solvents, thermal processing (distillation) or enrichment with synthetic or crystalline CBD.

5% CBD Oil contains:

CBD (cannabidiol): 5.3%
CBDA cannabidiolic acid: 0.61%
CBDV (cannabidivarin): 0.11%
CBG (cannabigerol): 0.06%
CBC (cannabichromene): 0.24%
 β -caryophyllene: 0.08%

The recommended dose is to use it 3 times daily. Put 8 drops under your tongue until it melts in your mouth.

5mg - 200 drops
10mg - 400 drops

25mg - 1000 drops

The use of this CBD oil has no psychoactive or side effects, it is completely safe.
