

## Magic Flight - Concentrate Trays

These Magic-Flight Herbal Concentrate Trays enable you to use herbal concentrates and extracts in your Launch Box. Any concentrate that can fully melt to a liquid and leave no residue behind is suitable for use in the screened tray. The unscreened tray works with all types of concentrate that do not completely melt to a liquid; do not use liquid concentrates with the unscreened tray. These reusable Concentrate Trays are constructed from stainless steel to securely and safely vaporize your desired concentrate. They can be cleared and reused with a standard torch lighter (not included). We recommend using this product with a Power Adapter 2.0 and a Draw Whip, or through our Orbiter and Water Pipe Whips for a cooler draw.

Your purchase includes:

- One Screened Concentrate Tray
- One Unscreened Concentrate Tray
- ABV Container
- Instruction Guide
