

Cibiday - CBD Candy Pillows Lavender

Lavender, known for the wonderfully aromatic scent spread by its violet-colored blossoms, is being appreciated more and more for the powerful flavor it commands.

CBD candy with characteristic lavender flavour

You can find all kinds of foods with this characteristic lavender flavour, especially in Provence in France. Since the flavour of lavender is rather strong, it also serves well to counteract the bitter flavour of the cannabidiol-containing hemp extract in the CBD candies.

Unique candy with cannabidiol

The unique lavender-colored and -flavored candy is made entirely by hand and is formed into pillows that are decorated with cheerful stripes. A healthy hemp extract, which contains a significant amount of the valuable ingredient CBD, is added to the candy mixture.

A treat without the bitter taste of CBD oil

Since the extract used is from hemp plants, it does not contain any psychoactive ingredients that can cause a high or stoned feeling. That makes this treat perfectly suited for children who would otherwise have issues with the bitter taste of CBD oil if they had to take it every day.

Cannabidiol wrapped up in a tasty, cheerful-looking sweet

When packaged in a delicious, cheerful-looking candy, kids can also benefit from the cannabidiol in hemp in a way that is simple and tasty. Due to the sugars present in the CBD-containing candy, it is important to enjoy them in moderation.
